# TIMING FOR CHAMPIONS

# THE EDOX HISTORY

**CHRISTIAN RUEFLI-FLURY**

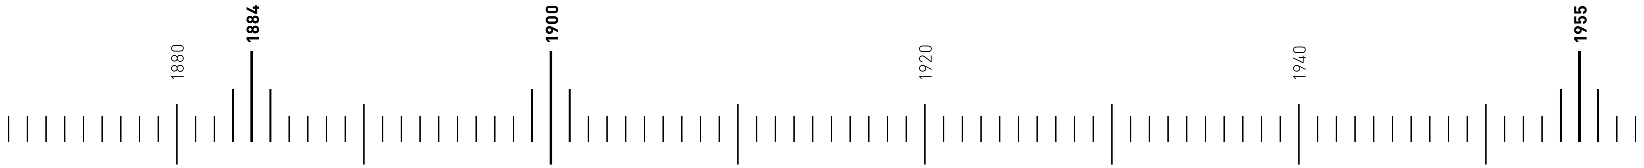

FOUNDER OF EDOX

1860 Born in Courrendlin (Switzerland), son of a foundry master. Educated in Courrendlin.

1870 Moved to Grenchen (Switzerland). Commenced horology apprenticeship with Urs Schild, one of the great Master Watchmakers, before joining the Eterna watch company.

1883 Married Pauline Flury. Worked for Jean Ægler - watchmaker in Biel/Bienne until 1883.

1884 Founded his own watchmaking atelier in Biel/Bienne. Principal founder of the Lake Biel-Bienne Steam Boat Company and originator of the Evilard funicular and the Wildermeth Hospital in Biel/Bienne. Made numerous significant donations to regional hospitals and to children's nurseries in Biel/Bienne and gave monetary support to retirement homes and sanatoriums for the hard of hearing.

**1884**

IT ALL BEGAN WITH
A TRUE LOVE STORY

Christian Ruefli-Flury, a highly talented and romantic watchmaker "Maître-Horloger" from Grenchen in Switzerland, produces a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinces her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

**1900**

THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

**1955**

A GROWING COMPANY

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies.

1961 1970 1980 1990 1998

### 1961

THE WATER CHAMPION

The famous "Delfin" timepiece was launched, featuring a double caseback, special protective gaskets and a specially invented double O'ring system, setting new standards of shock protection and water resistance.

### 1965

HYDRO-SUB

The revolutionary Hydro-Sub collection was launched, featuring the famous double O'crown patented Edox gasket for increased water resistance.

### 1970

THE FIRST GENUINE WORLD TIME WATCH

This year saw the introduction of the world's first truly global timepiece, the "Geoscope" watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

### 1998

WORLD RECORD STILL UNBROKEN

Edox engineers and watchmakers developed the world's slimmest calendar watch, the "Les Bémonts Ultra Slim" collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

2010 2016 2019

**2010**

THE TIMEKEEPER

Edox becomes the official WRC timekeeper and launches a new collection dedicated to rally drivers, true virtuosos of the tarmac, snow and ice, and to all devotees of the automobile and motor-racing world.

**2016**

**SAUBER F1® TEAM**

Edox is the official Premium Partner of **Sauber F1® Team** and steps in the thrilling world of Formula 1.

A new collection dedicated to this prestigious partner is also launched in 2016. This partnership is a strong testimony of Edox's presence amongst the most reknown and active Swiss watch brands.

**2016**

NEW FACTORY

Due to growing production demand, the factory capacity has expanded with a second floor.

**2019**

135 YEARS

Like time itself, Edox never stands still. The company this year celebrates its 135th anniversary. Over the decades Edox has forged a reputation as the ''water champion'' of the watch world, creating world-leading divers' watches.

Collection´s evolution

Also, by becoming the Official Timekeeper of the Class-1 World Championship in 2006, Edox made a big step into the very recluse world of timekeeping and sponsoring within the Swiss watch industry.

## OFFSHORE INSTRUMENTS

Offshore pilots are real heroes of extreme water races.

They have to keep their nerves under all circumstances, have perfect timing reaction and ensure the perfect race and aim for the title. The speed sometimes reaches a breathtaking 270 km/h. What pilots often say is "What you see in front of you is already history".

## SPIRIT OF THE OCEAN

Edox has always had a special bonding with the sailing world. In 2008, Edox made his first step into world class sailing with a major timekeeping project for international regattas. The Grand Ocean collection crowns this statement by proposing since many years timepieces that feature an unforgettable look and great enginuity.

Collection's evolution

By launching the Delfin collection in 1961, Edox has shown his know-how in engineering "Water Champion" timepieces, thanks to the double O'ring or reinforced caseback system for improving the water resistance of the watch.

**1961** **1967** **1969** **1970** **1973** **2014**

# DELFIN THE ORIGINAL

2018

## THE WATER CHAMPION WATCH

The Delfin collection was first launched in 1961 and used revolutionary watch parts such as double O'ring gaskets for crowns and pushers and a special shock absorbing caseback in order to withstand an impressive water resistance of 200 meters.

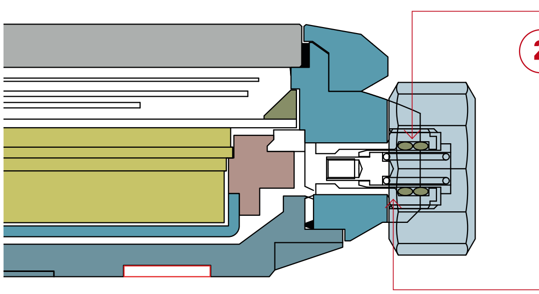

Nowadays, this special equipment is still featured in Edox Delfin timepieces.

Collection´s evolution

Adjusting the look and the materials but keeping the spirit of the 70s, that´s how the SkyDiver evolved from 1973. Now the collection still is water-resistant up to 300 meters / 30 ATM and equipped with a screw-down crown.

**1973**

**2019**

# SKYDIVER

## SPIRIT OF THE 70s

Rumoured to be launched following a Swiss colonel secret request in 1973, the SkyDiver collection pays tribute to paratroopers and the extreme conditions they might face - on land, air or sea.

Collection's evolution

From the very beginning, Edox has forged a unique path with its Les Bémonts collection. The Les Bémonts Ultra Slim, launched in 1998, set a world record for the world's slimmest calendar watch movement – just 1.4mm – that still stands. Classic, elegant and refined, the Les Bémonts range, like the tranquil rural region the collection is named after, reflects a love of Swiss tradition but with a modern twist.

# LES BÉMONTS

2019

## STYLE & ELEGANCE

Edox homeland is the land of traditional watchmaking and is the crib of the modern watchmaking craftmanship. Our land is rich of more than 400 years of history in watchmaking and our pride is to respect our elders'work and heritage.

56003 3 BUIN

1 Design inspired by Les Bémonts Ultra Slim models from 1998, holder of the world slimmest calendar watch record.
Design inspiré par les modèles Les Bémonts Ultra Slim de 1998, détenteurs du record du monde de la montre calendrier la plus fine.
Das Design ist von der originalen "Les Bémonts Ultra Slim" aus dem Jahre 1998 abgeleitet, der damals flachsten Uhr der Welt mit Kalender.
Diseño inspirado en los modelos Ultra Slim de Les Bémonts de 1998, poseedores del record mundial del reloj con calendario más plano del mundo.
1998年にリリースした、世界最薄のカレンダー表示機能付きムーブメント搭載の機械式時計「レ・ベモン・ウルトラスリム」の復刻デザイン
設計靈感來自1998年的Les Bémonts Ultra Slim 原型，是世界最纖薄的日曆腕錶記錄保持者
Дизайн вдохновлен моделью Les Bémonts Ultra Slim 1998 года, которая по сей день носит звание самых тонких часов с календарем.
التصميم مستوحى من ليبريمونت الترا موديل منذ عام 1998، صاحب الرقم القياسى لارفع ساعه ذو تقييم

# FRIENDS AND PARTNERSHIPS

**FIA WORLD RALLYCROSS CHAMPIONSHIP**

Edox has entered in to a long-term agreement to become the Official Timing Partner of the FIA World Rallycross Championship. This partnership extends Edox's long history of involvement with motorsport. The Chronorally collection has been developed to withstand the most extreme racing conditions and will be the official watch of this partnership.

The FIA World Rallycross Championship is head-to-head, short, sharp racing on mixed surfaces (dirt and asphalt) contained within amphitheatre venues. High profile drivers are equipped with RX Supercars with over 600bhp and an acceleration of 0-60mph in less than two seconds. As Official Timing Partner, Edox will have significant trackside branding and put their name to the fastest lap at each round of the championship.

**POWERBOAT RACING – PAL VIRIK NILSEN**

Pål Virik Nilsen from Sandefjord, Norway is one of the most experienced and best powerboat pilots in the world. He is the ambassador of the Edox CO-1 collection, dedicated to the exciting world of powerboat racing.

Virik Nilsen is a former World Champion, three times Australian Class-1 champion, and two times Norwegian Champion. All in all he has six UIM international medals from European and World Championships both categories Offshore and Circuit racing.

A truly passionate powerboat pilot, watch enthusiast and long term Edox ambassador!

# VISUAL ADVERTISING WINNERS

### ADVERTISING CORPORATE GUIDELINES

For Edox, visual identity is highly important. Our "Timing For Champions" campaign has been developed to give more importance to the product.

The Edox Corporate Guidelines are set in order to ensure you that the artwork that you are preparing perfectly matches with the advertising layout instructions.

It also ensures perfect watch visibility with appropriate watch and logo sizes and all layout components.

### ADVERTISING

Thank you for helping us in keeping the Edox brand image identical worldwide.

We remind you that all individually-designed layouts have to be submitted to Edox for final approval before printing of production.

All layouts are suitable for advertising, but also for banners, posters, window stickers, lightboxes, etc.

All layouts are available on the Edoxnet database (www.edox.ch/edoxnet)

For specific project, please contact Edox for full support.

# TECHNICAL INFORMATION

# EDOX QUALITY

**Batteries**

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

**Conformity**

Every component coming into our production facility in Les Genevez in the Swiss Jura is checked to ensure its dimensions, aesthetics, quality and interchangeability.

**Edox double O'ring Crown or Pusher**

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

**Helium Escape Valve**

Some of our CO-1 timepieces are equipped with a decompression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).

The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

**Leather**

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

**Luminescence**

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova X1 for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

**Mother-of-pearl**

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

**Movements**

Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

**PVD**

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

**Rubber**

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

**Sapphire crystals**

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

**Stainless Steel**

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

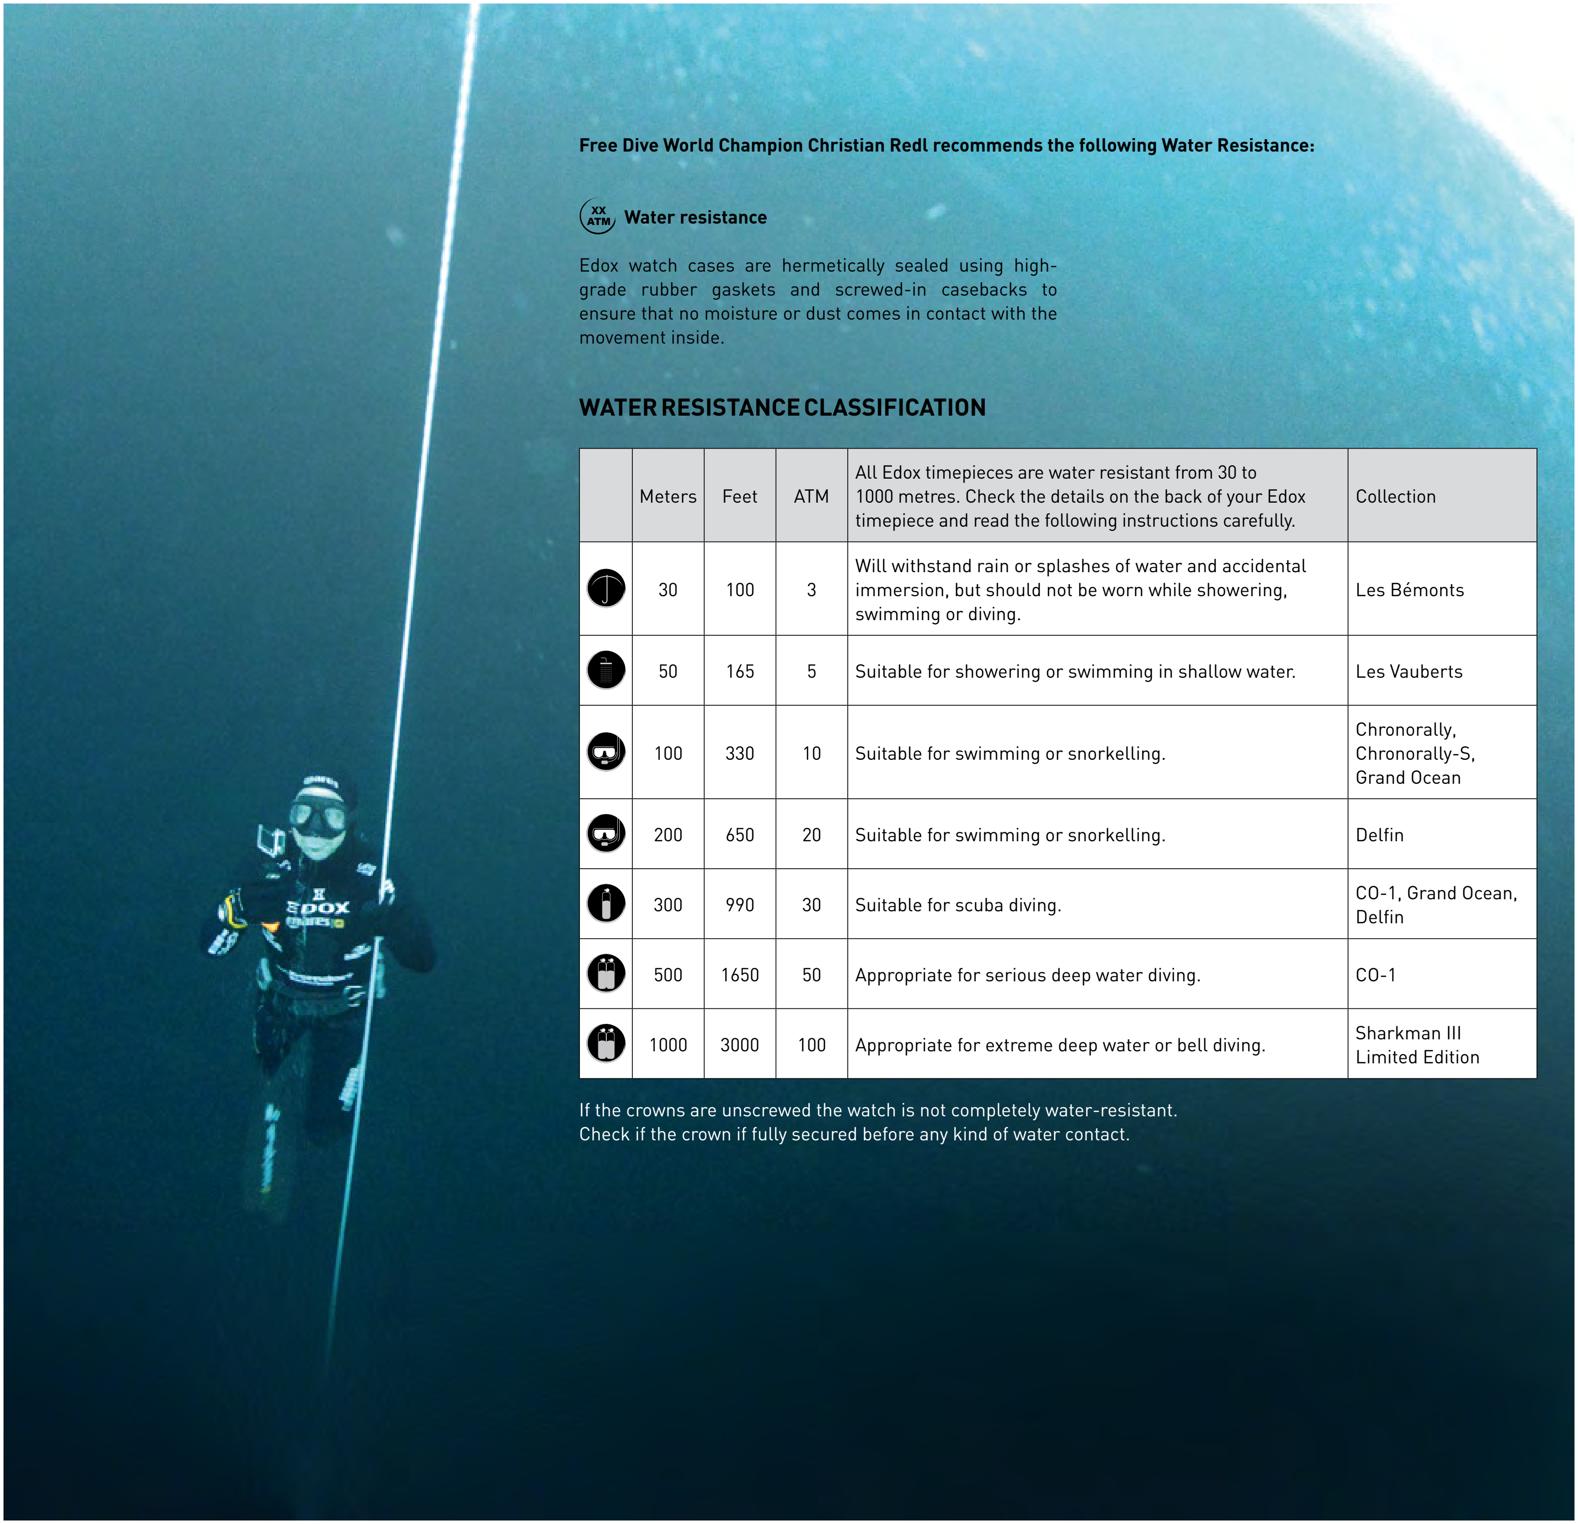

**Titanium**

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

**Visual and manual testing**

In addition to our testing process, all timepieces are visually checked between each manufacturing step ensuring overall quality based on our own Edox standards. If a timepiece does not pass inspection, it is checked and repaired. It can only go back to the production phase if it has passed the quality check.

**Free Dive World Champion Christian Redl recommends the following Water Resistance:**

### Water resistance

Edox watch cases are hermetically sealed using high-grade rubber gaskets and screwed-in casebacks to ensure that no moisture or dust comes in contact with the movement inside.

## WATER RESISTANCE CLASSIFICATION

| | Meters | Feet | ATM | All Edox timepieces are water resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully. | Collection |
|---|---|---|---|---|---|
| | 30 | 100 | 3 | Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving. | Les Bémonts |
| | 50 | 165 | 5 | Suitable for showering or swimming in shallow water. | Les Vauberts |
| | 100 | 330 | 10 | Suitable for swimming or snorkelling. | Chronorally, Chronorally-S, Grand Ocean |
| | 200 | 650 | 20 | Suitable for swimming or snorkelling. | Delfin |
| | 300 | 990 | 30 | Suitable for scuba diving. | CO-1, Grand Ocean, Delfin |
| | 500 | 1650 | 50 | Appropriate for serious deep water diving. | CO-1 |
| | 1000 | 3000 | 100 | Appropriate for extreme deep water or bell diving. | Sharkman III Limited Edition |

If the crowns are unscrewed the watch is not completely water-resistant.
Check if the crown if fully secured before any kind of water contact.

# REFERENCE NUMBER SYSTEM

The following information will help you on how to handle the Edox reference number, which will give you helpful product information regarding movements, dials and cases.

CO-1
01125 CLNBUN NINBU Ø 45 MM

**01**125 CLNBUN NINBU
MOVEMENT
The first 2 or 3 digits of these five figures represent the Edox movement code. Please refer to the page 116-120 of this catalogue.

01125 **CLNBUN** NINBU
CASE MATERIAL
The digits and/or letters represent the material and surface treatment (colour) of the case. (See the table)

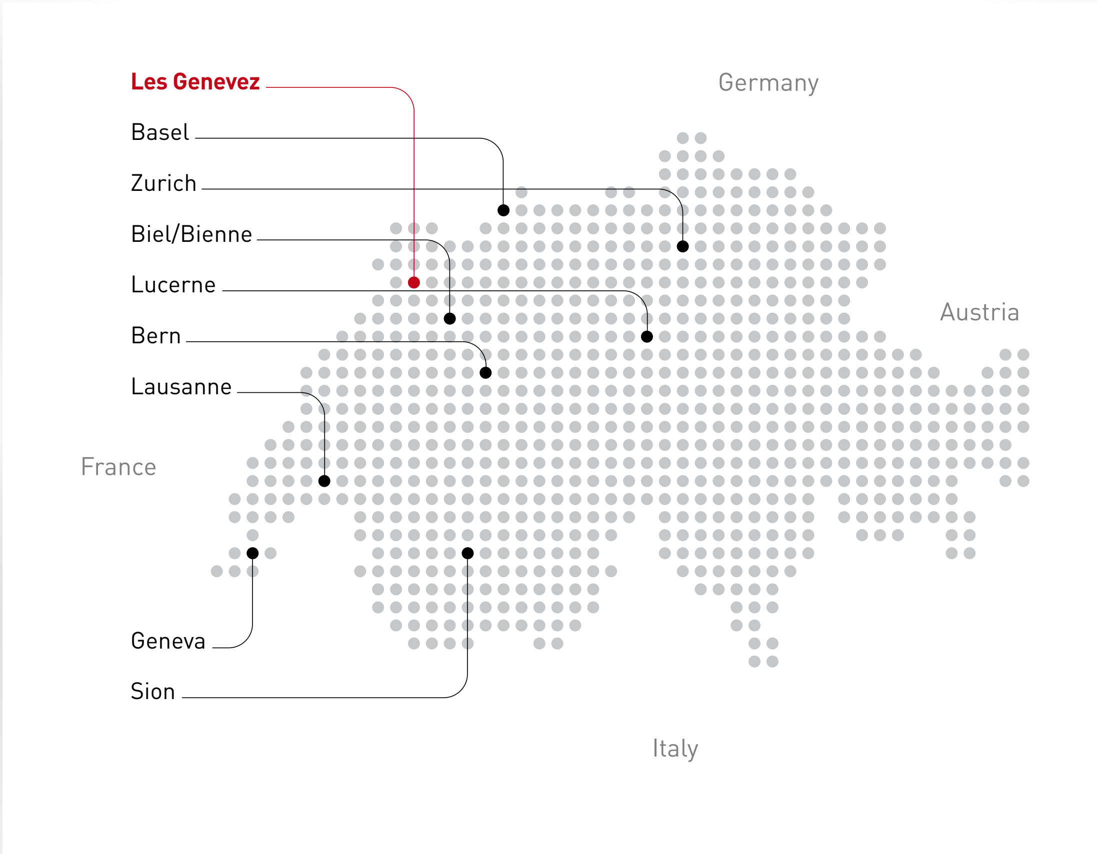

01125 CLNBUN **NINBU**
DIAL VARIATIONS
The digits and letters represent the colour and design of the dial.

| MOVEMENT | |
